

Textile Machine Connector

You can rest assured to buy Textile Machine Connector from Hanlinrui factory and we will offer you the best after-sale service and timely delivery. Textile machine connector, hot forging, galvanized, machining finished products, please look at the pictures, to undertake all kinds of mechanical parts processing, support samples, if necessary, welcome to call and inquiry.

Product Description

Wholesale low price Textile Machine Connector made in China. Hanlinrui is a Textile Machine Connector manufacturer and supplier in China. Our Hanlinrui machinery is a mechanical processing factory integrating industry and trade, A single sequence is not enough to complete the part Secondary Operations and Heat Treatment of Hot Forging We Offer.

- ◆ High precision machining
- ◆ Punching, drilling, tapping, bending, milling
- ◆ Painting, anodizing, black oxide, powder coating
- ◆ Heat treatment

For finishing and rough turning, we have relevant CNC lathes and machining center equipment to complete the whole production process, with an accuracy of 0.005MM in the same industry.

Advantages of Hot Forging

- ◆ Increased ductility
- ◆ Complex shapes
- ◆ High precision
- ◆ Cost benefit
- ◆ Enhanced stiffness
- ◆ Size: 1 in to 30 in
- ◆ Weight: Ounces to more than 100 pounds

Hlr machinery provides superior quality hot forging parts and components for a wide range of industries including automotive, food dairy, machinery, medical, plumbing, watering, mining, petrochemical, electrical, energy, aerospace, submarine and others.
